Crane Training Schools Kelowna

Crane Training Schools Kelowna - We have designed several programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who requires re-certification or certification, and for inexperienced operator who is searching for a job in the business. Positions for crane operators are high because of their high pay. Crane operators are among the highest paid of any operator of heavy equipment.

Our Crane Training Schools feature instruction and training for various mobile cranes. Course content consists of Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Rigging, Signaling and Load Charts.

The Crane Training School program is best for supervisors, operators and riggers. Course materials include an informative and manual hand-outs. The illustrated safety manual features one hundred to two hundred fifty pages, which depends on the course, of vital and useful material. Course materials include load charts and load chart exercises for the crane with which the person training is working.

Hands-On Safety Training will take up more than half of the course curriculum. The practical training section is the most helpful method to improving and developing personal skill levels. Only qualified journeyman crane instructors are chosen to teach the courses. Our instructors possess many years of experience in the industry.

Optional testing mechanisms are offered for all of our courses. Students would normally write tests both before and after training. A skills test is usually administered for programs which comprise H.O.S.T. People training will be tested and graded.

We offer certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Training and Certification; In-The Seat Training and Certification & Testing.

As the new business requirements emerge, the industry standards of practice also evolve. The business sees constant updates to regulations and legislation, in addition to technology and equipment enhancements. Industry data collection and analysis detect trends which are changing. Members maintain the privilege of managing their training programs and certifications. Mobile device alerts keep members ahead of workplace and personal safety news.
