

Clark Forklift

Performing globally, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with upwards of 250,000 of those in use in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized items designed for 20 unique models of lift trucks and automated equipment. Your regional Clark Dealer is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark has a extraordinary Parts Supply team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Internationally, Clark has one of the most impressive dealer support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the materials handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark's recurrent effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first lift truck producer across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their manufacturing plants. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing market position.

Lean Manufacturing

Clark has preferred the very economical and beneficial system of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was established to acknowledge the most successful method of manufacturing facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Engine Design

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The new value engineering agenda combines innovative product development and delivers improved consumer support and service within the industry.
